Hi Annette and Mark,

Can we schedule a short call today with our certification & OBD teams to talk about the (b) (4) certification timeline attached to this note? It is my understanding that if Mercedes can deliver on this timeline (and we can approve), (b) (4)

[REDACTED]

[REDACTED]

[REDACTED]

If by planning and coordinating our efforts we can give a timely determination on their (b) (4), we would strongly prefer to do so. I would like to talk this through briefly today with our teams and then perhaps have a short call with (b) (5)

[REDACTED]

[REDACTED]

[REDACTED]

Please let me know if a call today can be coordinated. I will be glad to circulate a call-in number if you can suggest a time. Other than one conflict at 10PST, I will rearrange my calendar to do a call anytime that can work for the CARB team.

Thanks,

Byron

Dear Byron,

Latane is currently here in Germany, so we would be available to talk today. He will be travelling back to the states tomorrow. Monday will be a travelling day for all of us going to Los Angeles, so the next possible date for a call would be Tuesday. Just let me know how you want to proceed.

Thanks, Joerg

Chris,

I stepped out of our meeting to take a call with Mercedes. Joerg Breuer was calling after the conclusion of his board of management meeting and conveyed the following.

(b) (4)

I let Joerg know that we would work with CARB to coordinate our certification testing and AECD review of the updated software to reach a certification decision as quickly as possible. Mercedes will be providing us a timeline regarding when a new test vehicle can be available and an updated AECD description. If the vehicle and the updated information can be delivered to us in (b) (4) we may be able to reach a decision on certification prior to the earliest date when (b) (4)

We will keep you up to date as we learn more.
